

TEMURBEK GANIYEV

Data Analyst | Google Sheets Automation | Power BI | SQL | E-commerce & Procurement Analytics

Tashkent, Uzbekistan | +998 95 140 69 65 | ganiyevtima1@gmail.com

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in e-commerce analytics, procurement analytics, Google Sheets automation, Power BI reporting, intermediate SQL, API-based data integrations, and business process systematization. Built a real-time product monitoring system for 3,000+ products using API keys to track sold quantity, impressions, live prices, and stock balances in structured tables. Combines data analysis with business execution experience across sourcing from China, identifying high-potential products, and building operating systems for company workflows.

TECHNICAL SKILLS

Google Sheets: advanced dashboards, formulas, structured tables, process automation, Apps Script

SQL: intermediate level; filtering, aggregation, joins, grouping, and business-data queries

Power BI: good working level; KPI dashboards, business reporting, data visualization

API integrations: real-time product data, sold quantity, impressions, live prices, and stock balances

Analytics methods: unit economics, pricing analysis, ABC analysis, product profitability, KPI tracking

Business systems: 1C, ERP workflows, Moysklad, Telegram bots, AI-assisted automation

PROFESSIONAL EXPERIENCE

General Data Analyst / Business Systems Analyst | E-commerce and operations

- Performed three core company functions: product sourcing from China, finding high-potential products, and systematizing business workflows.
- Built an API-key based real-time monitoring system for 3,000+ products, showing sold quantity, impressions, current prices, and stock balances in live tables.
- Designed Google Sheets-based analytical models for product tracking, profitability analysis, pricing decisions, and operational control.
- Used Power BI, SQL, Excel/Google Sheets, and Apps Script to turn raw product and marketplace data into practical business reports.
- Supported purchasing decisions by combining market research, product criteria, demand signals, price logic, and unit economics.

Public Procurement Broker | X-PRIZE HORIZON LLC | 1 year

- Supported public procurement processes and broker-related operations across local procurement platforms.
- Worked with commercial documentation, platform workflows, tax-related systems, and transaction execution.
- Applied data analysis tools to improve visibility into pricing, product economics, and operational decisions.

SELECTED PROJECTS

Portfolio Demo - API Unit Economics Dashboard: Created a shareable demo version with anonymized data:

https://docs.google.com/spreadsheets/d/1F2jqLd45cMXCDiNSC_9PG5Q3wrV71_YWbYcxoqvzP3M/edit

Real-Time Product Monitoring System: Built an API-key based system for 3,000+ products showing sold quantity, impressions, live prices, and stock balances.

Pricing System Model: Created a pricing strategy model to support structured price decisions and margin control.

Real-Time Unit Economics System: Developed an API-integrated model for product-level profit and loss visibility.

Master AI Control: Built an AI-integrated ERP control model for operational management and decision support.

Niche Founder: Designed a criteria-based model for finding new high-potential products and niches.

Telegram Daily Status Bots: Created Telegram bots for daily status updates and operational notifications.

EDUCATION

Tashkent Architecture and Construction University | 3rd-year evening student

- Field of study: Economics
- ADDITIONAL SPECIALIZATIONS
- E-commerce analytics and product sourcing
- Public procurement brokerage
- Business process systematization
- AI-assisted productivity and workflow design

LANGUAGES

Uzbek: Fluent; academic/professional proficiency

English: Fluent; academic/professional proficiency

Russian: Conversational; able to work with documents
